

Announcement - May 17, 2010

Montgomery County is in the midst of a budget crisis and our police, deputy sheriffs, corrections officers, fire fighters and paramedics do more than their share.

They have given up more than eight and one-half percent in pay increases, and saved the county over twenty million dollars.

They also agreed to retirement legislation that will save the county seven million dollars more...all while staying on the job and serving our community.

But that still isn't enough for some.

The Montgomery County Council wants to break a deal and take even more.

The same council that has a bloated four point three billion-dollar budget...

The same council where freshmen members make ninety-four thousand dollars...

Enough is enough!

Our first responders put themselves in harm's way everyday to protect and serve the residents of Montgomery County. They don't deserve to be treated this way.

Let the Montgomery County Council know that you support your public safety, law enforcement and fire fighters. Call the Council at 240 777-7900.

This message is brought to you by the Fraternal Order of Police, Montgomery County Career Fire Fighters and UFCW Local 1994 on behalf of your public safety workers.
